Bengaluru, India

sid04naik

sid04naik

PROFILE

Backend Engineering Specialist, Leadership-oriented technologist with 10+ years of experience in backend engineering, specializing in Go, Node.js, cloud platforms, Docker, NoSQL, caching, and queues. Passionate about building scalable systems, driving platform reliability, and mentoring high-performing teams. Available with a 15-day notice.

EXPERIENCE

Staff Engineer

Albert Invent

May 2024 – Present

Bengaluru, IN

- Designed multi-language support for customer data, enabling dynamic variations across regions and boosting global adoption by 40%.
- Implemented a scheduler with RRule and AWS EventBridge, reducing manual intervention by 70%.
- Built an async worker API, increasing throughput 5x, cutting processing from hours to minutes, and eliminating frontend freezes.
- Delivered a Digital Signature and Approval system with versioning, ensuring 100% audit compliance and reducing turnaround by 25%.
- Built a real-time notification system, improving user engagement.
- Tech Stack:** Nodejs, AWS, Microservices, REST API, DynamoDB, EventBridge, SQS, Lambda, Docker, K6

Senior Engineer

Yellow.ai

Oct 2022 – Apr 2024

Bengaluru, IN

- Designed and launched an in-house URL Shortener Service, replacing third-party tools and enabling integrated analytics; drove 1M+ links/month and boosted upsell conversion by 40%.
- Built a high-throughput OTP SMS service, reducing bot response latency by 10% and cutting external SMS costs.
- Contributed to scalable, low-latency microservices with Go, Redis, RabbitMQ, and Elasticsearch.
- Tech Stack:** Nodejs, Go, Redis, Elasticsearch, RabbitMQ, Microservices, REST API

Software Engineer Specialist

Kaleyra

Dec 2020 – Oct 2022

Bengaluru, IN

- Scaled SMS throughput from 1K to 5K TPS by migrating monolith to microservices and optimizing with Go.
- Implemented DB sharding for horizontal scaling and latency reduction across distributed workloads.
- Developed personalized SMS flows using AWS Serverless stack (Lambda, SQS, SNS, etc.), increasing customer engagement via custom payloads.
- Tech Stack:** Go, Nodejs, Redis, MongoDB, RabbitMQ, Microservices, REST API, New Relic, Graylog, Docker, Kubernetes, AWS

SKILLS

Go JavaScript Nodejs Firestore
MongoDB Postgres DynamoDB
MySQL Redis AWS Git SVN
RabbitMQ NewRelic Graylog Kubernetes
Docker Unix K6 CI/CD Serverless

CERTIFICATION

Go Developer's Guide Udemy

Built scalable back-end services in Go using Goroutines, Channels, Interfaces, and REST APIs.

AWS Serverless APIs and APPs Udemy

Developed serverless apps using AWS Lambda, API Gateway, and DynamoDB with automated deployment workflows.

Node.js, Express MongoDB Udemy

Developed REST APIs using Node.js, Express, and MongoDB with auth and production setup.

Certified Incident Responder PagerDuty

Learned incident handling, threat detection, and breach mitigation techniques.

EDUCATION

MSc. Software Technology (ST)

AIMIT

2013 – 2015

Mangalore University, KA

Bachelor of Computer Application

AIMIT

2013 – 2015

Goa University, GA

Senior Software Engineer

Sapnagroup

June 2016 – Dec 2020

Panjim, IN

Software Engineer

OPSPL

June 2015 – June 2016

Verna, IN

Software Engineer - Intern

Townhub Innovative solutions Pvt. Ltd

Jan 2015 – June 2015

Mangalore, IN

PUBLICATIONS

IJRCCE

Protein Structure and Function Prediction Using Machine Learning Methods
